UCSF Newsbreak

Celebrated Choreographer Merce Cunningham at UCSF-Laurel Heights Apr. 21

The Picasso of the dance world, Merce Cunningham, will take part in a UCSF panel discussion on Tuesday, April 21, at 8 p.m. in the UCSF-Laurel Heights auditorium.

Joining Cunningham will be biophysicist Ira Herskowitz, neurologist Frank Wilson and biochemist Martha Cyert to probe the subject "Creativity in the Arts and Sciences." The panel discussion will follow a screening of Cunningham's award-winning dance film "Coast Zone."

Tickets are $6 students (including dance students with ID), $7 UCSF faculty and staff, $8 general, and can be purchased at the Millberry Union central desk or by calling x62035.

During his almost 50-year dance and choreography career, Cunningham has received top honors around the world, including the Kennedy Center Honors at the White House, the Mayor of New York's Award of Honor for Arts and Culture, the Sir Laurence Olivier Award and the designation of commander of the Order of Arts and Letters by the French minister of culture.

Known for his creativity in designing dance for the camera, Cunningham, in his film "Coast Zone," explores a new element: the use of deep focus, which contrasts background figures with foreground. To accomplish this depth, he chose the long, wood-panelled Synod House of the Cathedral of St. John the Divine in New York City as his setting. The film premiered in San Francisco in 1984 and won a bronze Hugo award at the Chicago International Film Festival.

The three UCSF panelists were selected because they are outstanding scientists with an interest or involvement in the arts. Wilson is an assistant clinical professor of neurology and the author of *Tone Deaf and All Thumbs: An Introduction to Music-Making for Late Bloomers and Non-prodigies*. Herskowitz is a professor of biochemistry and biophysics and has a special interest in conceptual understanding of science. He has created a widely-distributed poster with a pictorial explanation of genetic information. Cyert is a graduate student in biochemistry and a Bay Area dancer.

The event is cosponsored by the UCSF Office of Development, Office of Public Service Programs and Campus Tours/Speakers Bureau. It is produced by the Committee for Arts and Lectures. For further information call x62542.

Cunningham's San Francisco appearance is part of a seven-month international tour by the Cunningham Dance Company, which includes performances at the Zellerbach Auditorium at UC-Berkeley, Friday and Saturday, April 24 and 25. For further information on the Zellerbach performances call 642-LIVE.

Cunningham's "Coast Zone"

New EH&S Facility Opens; Campus Safety Actions Taken

As part of recent campus actions on health and safety, construction of a new Environmental Health and Safety facility has been completed and will be ready for occupancy by April 18. It is located at the first bend of Medical Center Way.

This will consolidate all campus waste stream activity, EH&S laboratory support facilities and offices, and a completely new incinerator.

The final phase of consolidation of EH&S services will occur in January 1988 when a modular building is connected to the new EH&S facility.

Meantime, a room located on the 11th floor of HSW has been renovated for the use of two EH&S staff who have already started an intensive training program conducted floor-by-floor in HSW for all research laboratory faculty, staff and students.

And lastly, a chemical crash cart has been developed and will be housed in Room HSW 204B this summer.

The UCSF Health & Safety Policy Board, created by the Chancellor in March, is reviewing all of the campus environmental health and safety systems.

(continued on page 2)

Mikkel Aaland

Fruit Fly Forum Fruitful

UCSF biochemist Tom Kornberg (left) is seen in the above shot with three European colleages he enticed to campus on March 26 to attend an intensive mini-course on the development of the embryo of the fruit fly *Drosophila melanogaster*.

His across-the-sea partners are Klaus Sander of the University of Freiburg, West Germany; Christiane Nusslein-Volhard of the Max Planck Institute in Tubingen, West Germany; and Peter Lawrence of the Medical Research Council Laboratory of Molecular Biology, Cambridge, England.

This highly successful course, which attracted some 70 biochemistry faculty, postdocs and graduate students, is the first in a series of intensive courses planned by the Department of Biochemistry and supported by the Gordon Tomkins Fund.

UCSF Biotechnology Workshop on Design of New Drugs May 6

A one-day symposium designed to foster interactions between UCSF and the Bay Area biotechnology industry in developing new medically-useful drugs will take place on Wednesday, May 6, at UCSF-Laurel Heights.

The combined workshop and symposium will feature some 14 campus speakers plus 4 from local biotech firms, discussing current research in the area of drug design, development and delivery, and engineering of novel proteins as potential drugs. Researchers from biotechnology companies all over Northern California have been invited to attend.

"There has been a dramatic increase in the need for research in this area because of a new interest in protein drugs," said Wolfgang Sadee, professor of pharmaceutical chemistry and one of the organizers of the conference. "The specific focus of groups at UCSF is the structure of proteins, but this can be utilized to produce clinically useful drugs."

Other organizers are C. Anthony Hunt, associate professor, pharmacy and pharmaceutical chemistry; and Robert Stroud, professor, biochemistry/biophysics and pharmaceutical chemistry; as well as the Syntex Corporation.

The symposium is sponsored by the School of Pharmacy and the UC Biotechnology Research and Education program, a systemwide group that just awarded UCSF a two-year $300,000 grant to train postdoctoral fellows and graduate students in areas that could benefit the biotechnology industry. This includes the rational design of new drugs and proteins, as well as the development of new ways to deliver these drugs to patients. The training will exploit state-of-the-art computing, x-ray crystallography, magnetic resonance imaging and new genetic and chemical analysis techniques.

For further information call Susan Atwood, x61680.

The Giants and UCSF Team Up

If you've ever watched a professional baseball game, you know that at least half of the players are chewing away on something, and that something is smokeless tobacco.

This "chew" now is being blamed by physicians for an increase in oral cancer.

The Giants, one of the first teams who no longer will provide the tobacco free to team members, agreed to be part of a UCSF pilot program lead by School of Dentistry Dean John Greene and epidemiologist Virginia Ernster.

Greene and Ernster traveled in late February to the Giants training camp in Scottsdale, Arizona, to begin their research. While there, they examined willing ball players with the hope to gather much-needed data on the effects of chewing tobacco, ranging from mouth irritations to cancer. Our researchers hope to expand their study by next spring to include all eight teams in what is known as the Arizona-based Cactus League.

"There are small studies that show some gum diseases are exaggerated at places where they hold the chew, and increased staining of the teeth, and precancerous lesions, in regular users, but we need to see whether there are patterns with frequency of use, brand, associated alcohol, and so on," said Greene.

Details on the project will be discussed in the July 1987 issue of the *UCSF Magazine*.

Speaking of the Giants ... The entire team—all 30 members—were at our Med Center the morning of April 7 to cheer up patients on the pediatrics floor and several adult units.

Blood Drive Breaks Record; Next Donation Day Apr. 27

The January 26 campus blood drive netted 299 pints of blood. That beats our old record of 268 pints set back in October of last year.

First-year pharmacy student Meganne Kanatani and second-year dental student Brian Grey were winners of the January 26 raffle prizes of $50 gift certificates at the Washington Square Bar & Grill.

In the individual school contests, dental second-year class won first prize for donating the most blood, second went to the first-year, third to the third-year. The second-year Dental Hygiene class took first. The second-year class of the School of Medicine took first, first-year second, fourth-year third. The first-year students in the School of Pharmacy took first, second took second, fourth took third.

Why not take a few moments out of your day on Monday, April 27, for the next blood drive. Just visit either the main lounge in Millberry Union, any time between 8 a.m. and 3 p.m. or the mezzanine level in the School of Nursing building, 11 a.m. to 5:30 p.m. Donors are asked to bring ID.

Gift certificates at the Washington Square Bar & Grill again will be donated by the Associated Students at UCSF and the restaurant.

The Alumni Associations of the Schools of Pharmacy, Medicine and Nursing again will stage contests. Nursing will announce their cowinners for the last three blood drives following the April 27 drive.

The campus blood drive is sponsored by the Irwin Memorial Blood Bank and coordinated by the Campus Tours/Speakers Bureau. For further information call the campus blood bank at x64013.

Millberry "G" Level Gets New Tenants

Several UCSF employees will be hanging their hats in new office locations on the "G" level of Millberry Union beginning Saturday, April 25. All the moves are part of the campus effort to consolidate in one location areas that are similar. New "G" level neighbors will include:

- **Telecommunications**. Will remain on G level, but now in Room G 19. Box 0236 remains the same.
- **Transportation**. Was in Laundry Storehouse, now in G 18, Box 0299.
- **Materiel Management (Purchasing)**. Was in Laundry Storehouse. Consolidating in Room G 14, Box 0282.
- **Accounting Satellite**. Was in Medical Sciences Room 04. Will be in G 01.
- **Mailing Satellite Office**. Already located in Room G 25. Provides the same mail drop-off and pick-up service as did the old SB 26 location. However, all mail sorting now done at CED.

All telephone extensions for the above offices remain the same.

AIDS Bike-a-Thon

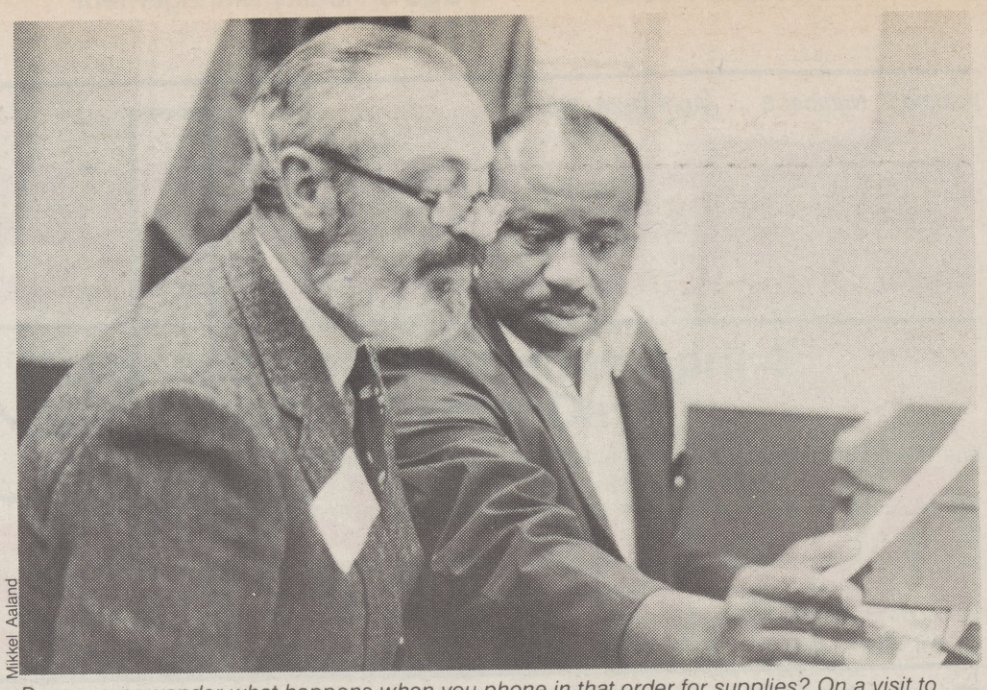
If you're a bicycle enthusiast or just a casual weekend peddler, why not spin your spokes for a good cause?

The 1987 AIDS Bike-a-Thon will be held on Saturday, May 9. Sponsors hope to raise some $500,000 to benefit 11 AIDS services throughout the Bay Area, including the UCSF AIDS Health Project. All funds from the pledge drive will go directly to the organizations.

Riders can choose from three routes—a short and easy 25-mile loop of San Francisco, a 60-mile tour of Marin County or San Francisco, or a 100-mile challenge ride through Marin. Riders and sponsors choose which agency they wish to contribute to.

It is hoped at least 1,000 cyclists will participate. Registration ends Sunday, April 26. For further information and registration packets call Tim Sally at the UCSF AIDS Health Project, x66441. The UCSF AIDS Health Project has educational support groups for people with AIDS, ARC, the "worried well" and those with positive antibody test results. Proceeds from the Bike-a-Thon will benefit the project's work with people who have AIDS.

Krevans Takes Orders at Oyster Point



Mikkel Aaland

Do you ever wonder what happens when you phone in that order for supplies? On a visit to Materiel Management's storehouse at Oyster Point, Chancellor Krevans gets a hands-on lesson in order processing. At the computer, showing the Chancellor how requisitions are checked, is John Turner, supervisor of the requisition issuing section.

Pippin's Pocket Opera to Benefit Child Care Center Apr. 24

The Friends of the UCSF Marilyn Reed Lucia Child Care Study Center are hosting a benefit performance of Donald Pippin's Pocket Opera on Friday, April 24, at 8 p.m. in the UCSF-Laurel Heights auditorium.

The performance will include excerpts from Mozart's "Marriage of Figaro" and "Yanked from the Harem" ("Abduction from the Seraglio"), Flotow's "Martha," Donizetti's "Don Pasquale" and Lehar's "The Merry Widow."

A reception sponsored by the Hibernia Bank will follow the performance. Tickets at $50 each are available by calling Stephanie Low at x68780.

Baker Says to Oppose Student Aid Budget Cuts

UC Vice President William B. Baker has asked all UC Chancellors, student organizations and alumni to write appropriate members of the California Congressional delegation asking them to oppose President Reagan's recent budget cuts and to support at least the current level of funding plus an inflation adjustment.

Reagan's recent proposal calls for a 45% reduction in student aid in the fiscal year 1988, as well as cuts in the current 1987 fiscal year.

The cuts would mean work-study and supplemental grants would be eliminated and the Guaranteed Student Loan program would be greatly reduced.

According to Baker, "If Congress enacts this proposal, the UC Office of Financial Aid estimates that 17,000 of our students would lose their work-study and grant support, while another 30,000 of our students would find the value of their GSL's reduced."

Substance Abuse Workshop Apr. 29

Teachers, teacher's aides, counselors and school nurses in grades K-8 are invited to attend a substance abuse workshop on Wednesday, April 29, from 3:45 to 6:45 p.m. at UCSF-Laurel Heights. Community experts will be presenting the latest information on the use and abuse of drugs among San Francisco youth, identifying children at high-risk, teaching substance abuse in the classroom and what resources are available.

A *Resource Guide for Teaching Substance Abuse Education* by Sharon McComb of the UCSF Office of Public Service Programs will be distributed to all educators in grades 4 to 6.

To register call McComb before April 22 at x63206.

Safety Committee continued

The Chancellor has also taken the following steps based on recommendations of an Ad Hoc Committee on Radiation Safety, which was created following an inspection of the campus by the Radiologic Health Branch of the State Department of Health Services in February:

1. The new Policy Board has overarching responsibility for all health and safety matters at UCSF facilities.
2. The three existing radiation safety committees are being merged into one, with five subcommittees: Hospital, Academic, San Francisco General Hospital, Laurel Heights, and Satellite.
3. The office of EH&S continues to be the regulatory and monitoring agency.
4. Every department and Organized Research Unit is to have a designated radiation safety representative who is a senior member of the faculty.
5. A new training program is being developed which will utilize multiple videotapes. Written examinations will be required.
6. All Federal and State regulations will continue to be made available in the EH&S office, and each employee handling these materials will receive information concerning the location of these regulations.
7. A simplified summary of information on radiation safety and training is being developed, and will be given to all individuals involved with radiation handling, training, monitoring, etc.
8. Ordering of radioactive isotopes will be done only after the Radiation Safety Committee grants a permit to the Principal Investigator, and materials will be ordered only through the Purchasing Department.
9. When radioactive isotopes are received, they will be checked against the permit by EH&S to assure that identity and quantity are authorized by the permit.
10. If there is a violation of campus policies or regulations, fines shall be imposed, and authority to use radioactive materials may be revoked.

"My commitment, and the commitment of the entire campus leadership, is to always keep the campus in full compliance," Chancellor Krevans declared. "The State has a responsibility to ensure public safety and as a public institution, we have an equal responsibility to safely operate our various programs."

Although the State has expressed its concerns arising from the inspection, this program is intended to mitigate their concerns and the concerns of individuals working on the campus. "I want to emphasize that the majority of the items involve matters of training, posting and documentation," said Chancellor Krevans. "There has been no exposure above annual permissible limits to anyone on the campus, and absolutely no exposure to the outside community."

Don't Lose That Smile

Periodontal (gum) disease is the number one cause of tooth loss in adults and eventually will affect 90% of us.

Because it progresses slowly and causes little discomfort in its early stages, you may not realize you have gum disease until irreversible damage has been done.

But, there are early warning signs—gums that are red, swollen, tender or bleed during brushing, receding gums or loose teeth, bad breath.

If you do notice any of these warning signs, you should see a specialist. The UCSF Periodontology Faculty Practice has experts who can determine if any evidence of gum disease is present. The findings will be discussed with you and, if necessary, suggestions for treatment will be made. In many cases, a simple cleaning may arrest the disease.

If you are part of UC's Delta Dental plan, your consultation is fully covered.

The UCSF Periodontology Faculty Practice is located in Room D 4030 in the School of Dentistry building. For a consultation call x68959.

High-Risk Behavior in Teens, No Correlation with Self-Involvement

A UCSF team studying teenage development has found that there is no direct correlation between an extremely egocentric, or self-involved, personality and the incidence of high-risk behavior, such as drug and alcohol use, drunken driving, or sexual activity.

The finding was unexpected, according to Peggy Dolcini, a Regents fellow in the Department of Psychiatry and staff research associate in the Division of Adolescent Medicine, who presented the research results recently in Seattle at the annual meeting of the Society for Adolescent Medicine.

"Adolescent egocentrism is associated theoretically with an exaggerated sense of immortality and invulnerability. We wanted to investigate the possibility that highly egocentric teens participate more often in potentially harmful activities because they feel that 'bad things' will always happen to someone else," she said. "Our data showed, however, that teens who rated higher on measures of egocentrism also associated higher levels of harm with risk-taking behavior."

The study team included principal investigator Nancy Adler, PhD; Lawrence Cohn, PhD; Charles Irwin, Jr., MD; Susan Kegeles, PhD; Susan Millstein, PhD; and George Stone, PhD, representing the Departments of Psychiatry and Pediatrics and the Division of Adolescent Medicine.

Panic Attacks?

If you have frequent panic attacks, but are otherwise in good health, you might qualify for a research study conducted by the Adult Outpatient Psychiatry Section of LPPI. The study will include psychological evaluations, neurotransmitter metabolite measurements and medication. A clinic fee will be assessed for all nonresearch aspects of treatment. Interested? Call x62215.

City-Wide Disaster Drill Apr. 16

The campus will participate in a city-wide disaster drill on Thursday, April 16, from 9:30 to 10:30 a.m. UCSF and several other hospitals will test how well we can communicate on MEDNET, San Francisco's emergency radio system.

Our campus also will activate a Disaster Control Center, which includes testing our internal walkie-talkie system, and will test how quickly our health professionals in the Medical Center can respond to setting up a triage area. There will be no moulaged "victims" or role playing in this drill.

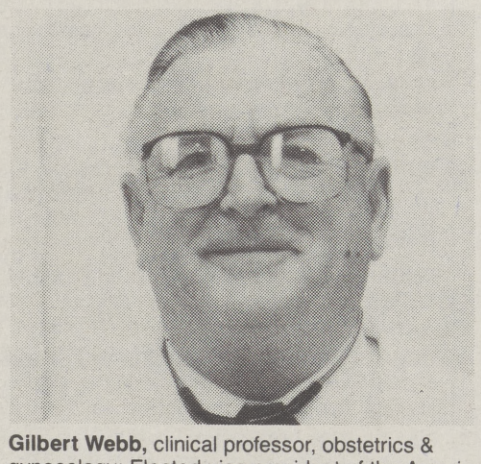
Honors & Awards

Susan Pador Lukes

Mary B. Olney, clinical professor, pediatrics: Winner of the Robert C. Kirkwood Award from the San Francisco Foundation for her 49 years of work with the Diabetic Youth Summer Camp, which she founded in 1938 with children from UCSF's Diabetic Clinic.

Reynold F. Brown, clinical professor, radiology; administrator, environmental health & safety: Awarded the Gold Medal of the American College of Radiology.



Gilbert Webb, clinical professor, obstetrics & gynecology: Elected vice president of the American College of Obstetrics & Gynecology.

Darryl Inaba, assistant clinical professor, pharmacy; director, Haight Ashbury Free Medical Clinic: Received one of two 1987 Outstanding Leadership Awards of the Japanese Community Youth Council.

Jeanne DeJoseph, assistant clinical professor, physiological & family health care nursing, School of Nursing: Appointed to the San Mateo County Advisory Council on Women by the County Board of Supervisors.

Mikkel Aaland

Carol Littlejohn, associate dean, School of Dentistry; administrator, dental public health & hygiene: Appointed vice chair of the Chancellor's Advisory Committee on the Status of Women.

Service Award Recipients

Service awards are issued on staff members' tenth anniversary of employment (or longer, in increments of five years). Names are provided by Personnel as awards are processed. Campus and Medical Center departments should send criteria to Personnel as employees become eligible for service awards.

Linda Haller, 15 years, nursing service

Marlene Harris, 15 years, physician offices

Lawrence Maduakolam, 10 years, environmental services

Alberto Manjarres, 15 years, professional fee billing

Danny Mark, 15 years, animal care facility

Barnie McLin, 25 years, pathology

Myrtle Miller, 20 years, environmental services

Petro Minasi, 10 years, Francis I. Proctor Foundation

Janet Mitchell, 15 years, stomatology

Mary Owens, 20 years, environmental services

Alicia Pantig, 10 years, Med Center accounting

Brenda Patterson, 10 years, resource management and planning service

Linda Perez, 10 years, CVRI

Kirby Ray, 15 years, physical plant

Jo-Mary Rhode, 20 years, nursing service

Barbara Richardson, 15 years, dentistry

Ronald Ruggiero, 15 years, pharmaceutical services

Margaret Sainten-Pillinini, 10 years, physical therapy

John Schindler, 10 years, respiratory therapy/SFGH

Lula Scott, 20 years, materiel services

Dennis Smith, 20 years, physical plant

Robert Sullivan, 20 years, physical plant

Juana Sykes, 20 years, environmental services

Sam Takaoka, 20 years, physical therapy

Edna Welch, 20 years, environmental health and safety

Sherry Lee Whelan, 15 years, dentistry

Richard Williams, 15 years, professional fee billing

Choong Woo, 15 years, pathology

Richard Young, 10 years, budget and reimbursement

New B of A-Giannini Fellows

Four UCSF postdoctoral fellows have received Bank of America-Giannini Foundation Medical Research Fellowships to enable them to do one year research projects at UCSF. Elaine Bearer, Robin Hightower, Ted Yednock and William Hansen each will receive $17,000 for the year beginning July 1, 1987.

- Bearer will work on "Plasma Membrane Differentiation in the Early Drosophila Membrane" in Bruce Alberts' laboratory in the Biochemistry & Biophysics Department.
- Hightower will work in Dan Santi's laboratory in the Biochemistry & Biophysics Department on "Structure of Amplified DNA in Drug-Resistant *Leishmania*."
- Yednock will work in Steven Rosen's laboratory in the Department of Anatomy, on "The Role of Carbohydrate Recognition in Organ-Specific Lymphocyte Homing & Metastasis of Lymphomas."
- Hansen will work on "Components Involved in Protein Translocation in Yeast" in Peter Walter's laboratory in the Biochemistry & Biophysics Department.

Nurse Educators at Arizona Conference

Some 40 educators from the School of Nursing will be presenting their research at the Twentieth Annual Communicating Nursing Research Conference from April 29 to May 1 in Tempe, Arizona.

Sponsored by the Western society for Research in Nursing of the Western Institute of Nursing, the conference is entitled "Collaboration in Nursing Research: Advancing the Science of Human Care."

President's Fellowships

Nominations are due by Friday, May 1, for the President's Dissertation Year Fellowships. Open to UCSF graduate students in the final stages of their doctoral work, the fellowships are limited to those members of domestic miniority groups—American Indians, Black or Mexican Americans, Puerto Ricans, Pacific Islanders—as well as non-minority women in underrepresented disciplines.

UCSF will receive at least two awards, each for $12,000 plus $500 for research and travel.

Eligible students must be nominated by their program director with a letter of support from their dissertation chair. For further information call x61555.

Late Round-Trip for UCSF-UCB Shuttle

Good news for people who have an interest in the UCSF/UC-Berkeley shuttle: An additional round trip has been added at the end of the day to leave UCSF at 5:30 p.m. and leave UC-Berkeley at 6:30 p.m. The rest of the schedule remains the same: Leaves UCSF 8:15 a.m., leaves UCB 9:10 a.m.; UCSF 10:10 a.m., UCB 11:10 a.m.; UCSF 11:50 a.m., UCB 12:25 p.m.; UCSF 1:10 p.m., UCB 2:10 p.m.; UCSF 3:10 p.m., UCB 4:10 p.m. The current fare is $1.25 each way. For further information call x61511.

Kaiser Award Reminder

A subtle reminder to medical students and housestaff that Friday, April 17, is the nomination deadline for the Kaiser Award for Excellence in Teaching. Ballots are available in Student Affairs, Room S 245. This is your opportunity to honor superior teaching. Call Caity Gerhardt, x68076.

In Memoriam

Edward D. Robbins, associate clinical professor of medicine. Diplomate, American Board of Internal Medicine, he was in private practice in San Francisco for 37 years. He received his MD from the University of Chicago in 1943 Alpha Omega Alpha and took his residency at the University of Chicago Clinics from 1948 to 1950. Robbins had been an associate chief in the Department of Medicine at Mount Zion Hospital and Medical Center since 1965.

Ottiwell W. Jones, '25, School of Medicine; clinical professor emeritus, neurosurgery: Retired since 1974, he was the son and father of physicians, all of the same name and all graduates of UCSF School of Medicine. Jones was in private practice since 1930 and was chief of staff, chief of neurosurgery and a trustee at Ralph K. Davies Medical Center. He was a former president of the American Society of Neurological Surgeons.

Promotions

Promotions are made available to this publication after they are processed by the Personnel Department.

Jose Abrego, administrative analyst, medical records.

Anne Bartholome, senior word processing specialist, LPPI.

Rachel Cruz, data support assistant I, student financial aid office.

Tracy Hydorn, staff research associate I, ophthalmology.

Thomas Larke, administrative assistant II, medicine/endocrine.

Mark Shannon, management services officer III, Millberry Union bookstore.

Elizabeth Terra, principal administrative analyst I, ACC administration.

Christopher Vasquez, hospital parking operations aide, parking operations.

Contracts & Grants Awarded

John R. Balmes, medicine - SFGH, S/M, $34,172, CAL Department of Health Services, *Surveillance for Sentinel Health Events Pilot Project*.

Darlene J. Elias, anatomy, S/M, $6,221, American Lung Association - Strobel Medical Research Grant, *Identification of Differentiation Markers for Tracheal Goblet Cells*.

Donald Lee Emery, CVRI, S/M, $9,900, American Lung Association - Strobel Medical Research Grant, *Effects of Canine Epithelial Cells on Mastocytoma Cells*.

Henry J. Fuchs, CVRI, S/M, $7,500, American Lung Association - Strobel Medical Research Grant, *Alveolar Macrophage Il-1 & Ia in BCG-induced Lung Injury*.

William F. Ganong, physiology, S/M, $60,000, NASA Ames Research Center, *Neural Mechanisms by which Gravitational Stimuli & Stress Affect the Secretion of the Renin & Other Hormones*.

Carolyn S. Glaubensklee, stomatology, S/D, $10,000, American Lung Association - Strobel Medical Research Grant, *Regulation of Water & Chloride Transport Across Human Placenta: A Comparison of Normal & Cystic Fibrosis*.

Bonnie Holaday, family health care nursing, S/N, $92,138, HHS Children Youth & Families, *A Survey of Chronically Ill Children's Use of Time Out of School*.

Charles R. Marmar, LPPI, $10,000, Research Triangle Institute, *Subcontract for National Vietnam Veterans Readjustment Study*.

William W. Parmley, CVRI, S/M, $30,000, Alcoholic Beverage Medical Research Foundation, *Alcoholic Cardiomyopathy - Protection by Verapamil*.

Stanley B. Prusiner, neurology, S/M, $75,000, CAL Department of Health Services, *Alzheimer's/Molecular Biology of Brain Degeneration & Dementia*.

Peter S. Sommers, family & community medicine, S/M, $12,159, Alameda County - Highland General Hospital, *SFGH Residency Affiliation*.

Rose Koe-Jui Wang, anatomy, S/M, $46,207, Veterans Administration, *IPA Agreement, SF-VAMC*

CA Policy Seminar Call for Proposals

Funds now are available from the California Policy Seminar to UC faculty who are investigating policy issues relevant to California. Work will be funded from six months to two years for $15,000 to $75,000. The deadline for proposals is Wednesday, April 15. For guidelines and further information call the California Policy Seminar, 642-5514.

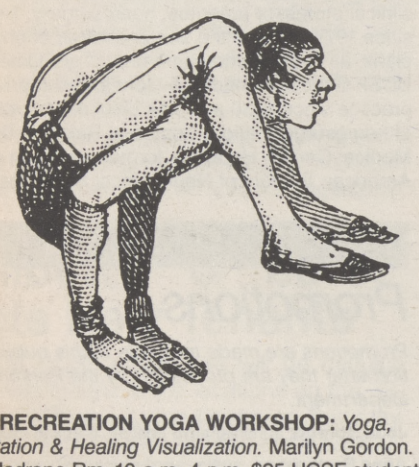
Today/Tomorrow

11 Saturday

ANESTHESIA MORBIDITY/MORTALITY CONFERENCE. HSW 301. 8-10 a.m.

ORTHOPEDIC GRAND ROUNDS. Shriners Hosp. Aud. 8-9 a.m.

UROLOGY GRAND ROUNDS: *Evaluation & Management of Infertility of Obstructive Origin.* Ira Sharlip, Uro. *Penile Erection & Arterial Insufficiency: Experimental Study.* Jan Breza, Uro. Preceded by reports & case presentations. HSW 300. 8:30-11 a.m.



PRO RECREATION YOGA WORKSHOP: *Yoga, Meditation & Healing Visualization.* Marilyn Gordon. MU Madrone Rm. 10 a.m.-4 p.m. $25 UCSF students & MU members, $30 general. Call x61800.*

13 Monday

OTOLARYNGOLOGY GRAND ROUNDS. S 214. 8-10 a.m.

MOBILE MAMMOGRAPHY SCREENING SCHEDULE

Women now can have low-cost mammograms—x-rays to screen for breast cancer—from a mobile van that travels to convenient shopping or downtown locations in San Francisco and remains for a week at a time.

Women need the approval of their physicians to have the mammogram. The procedure takes approximately 20 minutes and costs only $40. To make an appointment call 990-0459 or x62193 between 9 a.m. and 3:30 p.m.

The van will be at the following locations for the next two weeks:

Apr. 13-17: UCSF Laurel Heights, in parking lot, 3333 California St.

Apr. 20-22: Westlake Shopping Center, on Park Plaza Dr. near the Safeway.

Apr. 23-24: KPIX 5 Building, on Battery St. at Broadway.

EMERGENCY MEDICINE GRAND ROUNDS: *Trauma & Pregnancy: Thrombolysis in Acute MI—Role of the ED.* Judith Tintinalli, Emer. Med., U Michigan. S 214. 10 a.m.-noon.

EPIDEMIOLOGY & INTERNATIONAL HEALTH SEMINAR: *Case-Control Study of Endometriosis.* Janet Hiller, Epid., Johns Hopkins. HSW 1699. Noon-1 p.m.

OVEREATERS ANONYMOUS MEETING: N 417. Noon. Call Dolores Phillips, 929-8651.*

LABORATORY MEDICINE CORE CURRICULUM. L 535. 2-3:30 p.m.

LABORATORY MEDICINE GRAND ROUNDS. L 535. 4-5 p.m.

HAND & MICROSURGERY CONFERENCE: *Wrist Instability.* George J. Tischenko, Ortho. Surg. U 469. 4:15 p.m.

PEDIATRIC UROLOGY CONFERENCE: *Sexual Differentiation.* Felix Conte, Ped. M 460. 4:30-6 p.m.

14 Tuesday

COMBINED MODALITY BREAST CANCER CONFERENCE. Surg. Clin. Conf. Rm., 6th Fl. A. 8 a.m.

ORAL & MAXILLOFACIAL SURGERY GRAND ROUNDS: *AVAP: Periodontal Manifestations in AIDS Patients.* Jim Winkler, Stomatol. C 701. 8-10 a.m.

SFGH PEDIATRIC GRAND ROUNDS. *Pertussis.* J. Robbins, Dept. Vaccine Dev. NIH. Carr Aud., SFGH. 8:30-10 a.m.

NEW EMPLOYEE ORIENTATION: *UCSF Policy, Procedures & Benefits.* Presented every other Tues. All new employees are urged to attend. S 214. 8:30 a.m.-noon. To register call x61645.

SFGH MEDICINE GRAND ROUNDS. Carr Aud., SFGH. 11:30 a.m.

GENDER, CLASS & RACE IN THE HISTORY OF HEALTH SCIENCES LECTURE SERIES: *Seeing What is Really There: Representing Women in Renaissance Anatomy.* Thomas Laqueur, History, UCB. HSW 302. Noon-1 p.m.*

OBSTETRICS/PEDIATRICS & ANESTHESIOLOGY CONFERENCE: Julian T. Parer, Ob/Gyn; Roderic H. Phibbs, Ped. & CVRI; Sol Shnider, Anes. & Ob/Gyn. M 1486. Noon.

INTERNATIONAL FOLK DANCING: Led by Dean Linscott. No partner needed. Everyone welcome. MU Gym. 1:15-2:30 p.m. $2.*

SFGH GI-MEDICINE/SURGERY/RADIOLOGY IMAGING CONFERENCE. Rm. 1X58, SFGH. 3:30 p.m.

BIOCHEMISTRY/BIOPHYSICS SEMINAR: *Factor Independent Termination Signals for Bacterial & Eukaryotic RNA Polymerases.* Mike Chamberlin, Biochem., UCB. HSW 301. 4 p.m.

CURRENT ISSUES IN AGING COLLOQUIUM SERIES: *Preventive Dentistry for the Elderly.* Samuel J. Wycoff, Dent. Publ. Hlth. & Hygn. N 729. 4-5 p.m.*

UCSF/UCB JOINT BIOENGINEERING SEMINAR: *Modulation of Capillary Permeability.* Roy Curry, Human Physio., UCD. 240 Bechtel, UCB. 4-6 p.m.

CAL FILM GROUP: MU Board of Governors Rm. 6 p.m. Call x62542.*

15 Wednesday

HAND SURGERY CONFERENCE: *Brachial Plexus Injuries.* James Davis, Plast. Surg. S 214. 7-8 a.m.

MULTIDISCIPLINARY TUMOR BOARD: M 1296. 7:30 a.m. Call Lourdes Sibayan, coordinator, x61662.

SFGH ORTHOPEDIC SURGERY STAFF CONFERENCE. Rm. 5K8, SFGH. 7:30-9 a.m.

PSYCHIATRY GRAND ROUNDS: *Missing Children & Their Families: Trauma & Response.* Chris Hatcher, Psychr. LPPI Aud. 8-9 a.m.

DERMATOLOGY GRAND ROUNDS: *The Computer in Dermatology.* Ernst Epstein, Derm. HSW 301. 8 a.m.

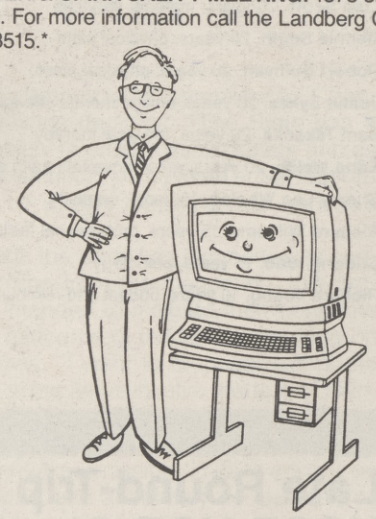
NUCLEAR MEDICINE SEMINAR. L 340. 8:15-9:15 a.m.

ENDOCRINE GRAND ROUNDS: *Peripheral Actions of Thyroid Hormone.* Kenneth A. Woeber, Med. M 1486. 8:30 a.m.

MEDICINE GRAND ROUNDS: *EPS: A Modern Approach to Cardiac Arrhythmias.* Melvin Scheinman & Jerry Griffin, Med. Cole Hall. 11 a.m.-noon.

ORAL BIOLOGY 209 CONNECTIVE TISSUE SEMINAR: *Adherance & Degradation of Basement Membranes In Vitro by Oral Bacteria.* Jim Winkler, Perio. S 214. Noon.

WOMEN & SPIRITUALITY MEETING: 1378 3rd Ave. Noon. For more information call the Landberg Center, 564-3515.*



BROWN BAG LECTURE SERIES: *Living & Working With Computers & VDTs.* Joseph Ladou, Med. HSW 300. Noon. Also telecast live to SFGH Carr Aud. & CED 3rd Flr. Commons Rm. Videotapes available for viewing in HSE 345, SIMA unit, UCSF Library. Call x64394.*

UCSF AL-ANON MEETING: For friends & families of alcoholics. C 517. Noon-1 p.m.*

ANATOMY SEMINAR: *Fertilization, Transcriptional Activation & Blastocoele Formation in Mouse Eggs & Embryos.* Richard Schultz, Bio., U Pennsylvania. HSE 1309. Noon.

UCSF HOSPITALS AUXILIARY BOARD MEETING. MU West Lounge. Noon-2 p.m.

SCHOOL OF DENTISTRY DEAN'S SEMINAR: *Xerostomia: Insight Into a Dry Subject.* Troy E. Daniels, Oral Path. HSW 301. 12:30-1:45 p.m.

HEAD & NECK TUMOR CONFERENCE. A 732. 1-3 p.m.

PHYSIOLOGY SEMINAR: *Cloning & Analysis of the Putative Suppressor Gene in Retinoblastoma.* Yuen Kai Teddy Fung, Ped. & Microbio., USC. HSW 300. 4 p.m.

TRISERVICES CARDIOLOGY CONFERENCE. C 130. 4-5 p.m.

UCSF/UCB TOXIC SUBSTANCES RESEARCH & TRAINING SEMINAR: *Lung Cancer & Indoor Air Pollution in China.* Judy Mumford, US-EPA Health Effects Res. Lab. 24 Warren, UCB. 4-6 p.m.

JOINT UCSF/UCB TOXIC SUBSTANCES SEMINAR: *Mass Spectrometric Strategies for the Analysis of Glycoproteins Involved in Disease.* A.L. Burlingame, Pharm. Chem. HSW 302. 4 p.m.

SFGH GI-MEDICINE/SURGERY PATIENT CARE CONFERENCE. Rm. 4H2, SFGH. 4:30 p.m.

CHILD NEUROLOGY CONFERENCE. M 666. 4:30 p.m.

UROLOGIC PHYSIOLOGY CONFERENCE: *Micturition.* Richard Schmidt, Uro. M 460. 4:30-6 p.m.

SCHOOL OF MEDICINE DEAN'S RESEARCH SEMINAR: *How Secretory Proteins Find & Cross the Correct Intracellular Membrane.* Peter Walter, Biochem. & Biophys. HSW 300. 5-6 p.m.

PATHOLOGY GRAND ROUNDS: *Gynecologic Cytology.* Kent Bottles, Path. & Med. HSW 508. 5:15-6:15 p.m.

NEUROSCIENCE CONFERENCE. M 666. 6-7 p.m.

16 Thursday

CLINICAL PAIN CONFERENCE. S 758. 7:30-8:30 a.m.

SFGH NEUROLOGY-NEUROSURGERY CONFERENCE. Rm. 4H2, SFGH. 8-9 a.m.

OPHTHALMOLOGY CONFERENCE: *Current Status of Epikeratophakia.* Miles Friedlander, Oph. Preceded by patient exams & discussion: *Strabismus.* S 214. 8:15 a.m.

OCCUPATIONAL & ENVIRONMENTAL MEDICINE GRAND ROUNDS: *Toxicologic Charlatanism: Quackery in Environmental Medicine.* Gideon Letz, Med. A 455. 8:30-10 a.m.

PEDIATRICS GRAND ROUNDS: *Neurologic Assessment of the Asphyxiated Newborn.* Barry Tharp, Neuro. & Ped., Stanford. S 664. 8:30-9:30 a.m.

SFGH TRAUMA CENTER CONFERENCE. Rm. 4H40, SFGH. 8:30 a.m.

CAMPUS-WIDE DISASTER DRILL: Part of a city-wide drill testing hospital response to disasters. 9:30-10:30 a.m. (See story on page 2 for details.)

PEDIATRIC TUMOR BOARD. L 34. 11 a.m.-12:15 p.m.

NEUROLOGY GRAND ROUNDS: *Neuromuscular Complications of Potassium Deficiency.* Morris Schambelan, Med; Robert Layzer, Neuro. S 664. 11:10 a.m.-12:05 p.m.

NEURO-ONCOLOGY TUMOR BOARD. L 34. 12:30-1:30 p.m.

HEMATOLOGY/ONCOLOGY GRAND ROUNDS: *Vessel Wall Procoagulant Activity in Atherosclerosis.* George Rodgers, Med. M 1296. 1:30-2:30 p.m.

NOBEL LAUREATE BALTIMORE APR 16

1987 HITCHCOCK LECTURE: *Control of Antibody Gene Expression.* David Baltimore, director, Whitehead Inst. & 1975 Nobel Laureate in Physiology or Medicine. Cole Hall. 2:30-4 p.m.

NEUROBIOLOGY SEMINAR: *Molecular Analysis of Neurogenesis in* Drosophila. Spyridon Artavanis-Tsakonas, Bio., Yale. HSW 300. 4 p.m.

NEURORADIOLOGY CONFERENCE. HSW 303. 4-5 p.m.

MEDICINE/SURGERY ADULT CARDIAC CATHETERIZATION CONFERENCE. L 1161. 4-6 p.m.

PRIMARY CARE GRAND ROUNDS: *Outpatient Evaluations & Management of Pleural Effusions.* Homer Boushey, Med. & CVRI. A 455. 4:30 p.m.

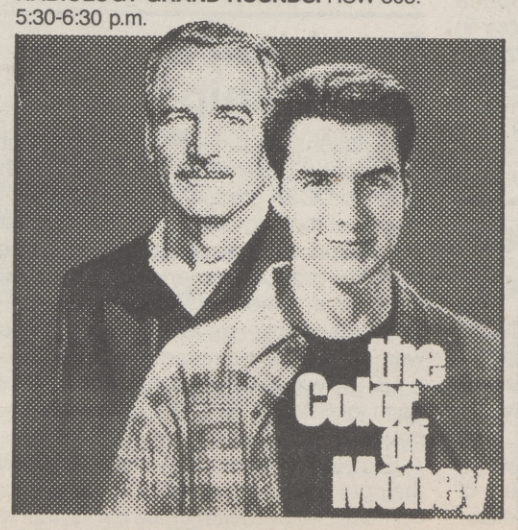
OPERATIVE UROLOGY CONFERENCE: *Female Pelvic Anatomy.* Edward Hill, Gyn. Onc., Ob/Gyn & Rad. Onc. M 460. 4:30-6 p.m.

PARENTS FOR CAMPUS INFANT CARE MEETING: All interested people invited. HSE 317. 5 p.m.*

RADIATION ONCOLOGY CONFERENCE: *Review of Dose Volume Histogram Concepts.* David Huang & Cliff Ling, Rad. Onc. L 34. 5 p.m.

NEUROSURGERY GRAND ROUNDS. HSW 302. 5-6:30 p.m.

RADIOLOGY GRAND ROUNDS. HSW 303. 5:30-6:30 p.m.



COLE HALL CINEMA: *The Color of Money.* Starring Tom Cruise & Paul Newman. Children under 14 $2; MU members, UCSF students & employees (Thurs. shows only) $2.50; general $3. Cole Hall. 5:45 & 8:15 p.m.*

PLASTIC SURGERY LECTURE/DINNER MEETING: *The Plastic Surgeon & Experimental Studies in Prophylactic Mastectomy & Moh's Chemosurgery.* Stephen Miller, Plast. & Recon. Surg., Oregon Hlth. Sci. U. Doctors' dining Rm. & 2nd Fl. Meeting Rm., St. Francis Hosp. 6 p.m. $20. Call x63061.

17 Friday

SFGH MAXILLOFACIAL TRAUMA CONFERENCE. Rm. 4H4, SFGH. 7-7:30 a.m.

PULMONARY PHYSIOLOGY SEMINAR. L 1361. 8-9:30 a.m.

TRICENTER RADIATION ONCOLOGY CONFERENCE. L 34. 8:10 a.m.

PEDIATRIC CHIEF OF SERVICE ROUNDS. M 666. 9 a.m.

LPPI CHILD & ADOLESCENT SERVICE CLINICAL CONFERENCE. LPPI Aud. 10:10-11:30 a.m.

CLINICAL NEUROLOGY CONFERENCE. A 884. 11 a.m.-12:15 p.m.

ALCOHOLICS ANONYMOUS MEETING: All are invited. HSE 336. Noon-1 p.m.*

UCSF WOMEN'S BASKETBALL CLUB: Open to all campus women. MU Gym. 6-7:30 p.m. Call Mary Newman for details, x63058.

COLE HALL CINEMA: *The Color of Money.* Starring Tom Cruise & Paul Newman. Children under 14 $2; MU members & UCSF students $2.50; general $3. Cole Hall. 6:30 & 9 p.m.*

18 Saturday

CONCERTO MARINI ENSEMBLE APR 18

CAL MUSICAL PANORAMAS: *Apothesis of Corelli or the Triumph of Italian Music.* Solo and chamber masterpieces of 17th & 18th century Europe. UCSF-Laurel Heights Aud. 8 p.m. $6 students & seniors, $7 UCSF faculty, $8 general. Call x62542.*

20 Monday

OTOLARYNGOLOGY GRAND ROUNDS. S 214. 8-10 a.m.

INTESTINAL IMMUNOLOGY RESEARCH SEMINAR: *Immunological Approaches in the Study of M-Cell Function.* Jacques Pappo, Med. & Stomatol. Rm. 2A47, Bldg. 203, VAMC. Noon-1 p.m.

OVEREATERS ANONYMOUS MEETING: N 417. Noon. Call Dolores Phillips, 929-8651.*

LABORATORY MEDICINE CORE CURRICULUM. L 535. 2-3:30 p.m.

LABORATORY MEDICINE GRAND ROUNDS. L 535. 4-5 p.m.

CVRI SEMINAR. S 1364. 4-5:30 p.m.

HAND & MICROSURGERY CONFERENCE: *Tendon Repair.* William Cimino, Ortho. Surg. U 469. 4:15 p.m.

UROLOGY RADIOLOGY CONFERENCE. M 460. 4:30-6 p.m.

21 Tuesday

COMBINED MODALITY BREAST CANCER CONFERENCE. Surg. Clin. Conf. Rm., 6th fl. A. 8 a.m.

ORAL & MAXILLOFACIAL SURGERY GRAND ROUNDS: *Preprosthetic Surgery & Osseo-integrated Implant in Completely Edentulous Patients.* Theodore Jacobson, Rest. Dent. C 701. 8 a.m.

April 11-24, 1987

SFGH PEDIATRIC GRAND ROUNDS. *Profile of the Sexual Offender.* R. Wolk, Psychr. Carr Aud., SFGH. 8:30-10 a.m.

OBSTETRICS/PEDIATRICS & ANESTHESIOLOGY CONFERENCE: Julian T. Parer, Ob/Gyn; Roderic H. Phibbs, Ped. & CVRI; Sol Shnider, Anes. & Ob/Gyn. M 1486. Noon.

GENDER, CLASS & RACE IN THE HISTORY OF HEALTH SCIENCES LECTURE SERIES: *Psychosurgery & Psychiatric Practice, 1935-1955.* Jack Pressman, Rutgers/Princeton Mental Hlth. Res. Prog. HSW 302. Noon-1 p.m.*

WOMEN'S RESOURCE CENTER LECTURE: *Report Back: Nicaragua.* Journalist & poet Gwen Carmen. Toland Hall. Noon. Call x65836.*

PSYCHIATRY LECTURE: *Neuroimaging Approaches to Cerebrovascular Dementia.* Craig VanDyke, Psychr. LPPI Aud. Noon-1 p.m.

INTERNATIONAL FOLK DANCING: Led by Dean Linscott. No partner needed. Everyone welcome. MU Gym. 1:15-2:30 p.m. $2.*

SFGH GI-MEDICINE/SURGERY/RADIOLOGY IMAGING CONFERENCE. Rm. 1X58, SFGH. 3:30 p.m.

PARKER MEMORIAL LECTURE APR 21

FIRST ANNUAL RICHARD PARKER MEMORIAL BIOCHEMIST/MICROBIOLOGY LECTURE: *Structure of Thymidylate Synthase: Basis for Rational Drug Design.* Janet Finer-Moore, Biochem. HSW 301. 4 p.m.

CURRENT ISSUES IN AGING COLLOQUIUM SERIES: *Osteoporosis: Physiological Changes & Effects of Calcium Intake.* Edmund T. Lonergan, Med.; R. Ron Finley, Pharm. N 729. 4-5 p.m.*

STRESS MANAGEMENT

Behavioral Medicine Unit Six-Week Seminar. David Bezanson, Med. Learn how to decrease anxiety & improve coping skills through stress management. Wed., Apr. 15-May 20. 6:30-8 p.m. $110. Call David Bezanson, x61445 or 383-8129.*

Benefits

How's Health Net Doing, You Asked?

In this column last issue, employees were invited to send in their benefits questions—with the promise that if the subject matter had mass appeal, we'd print the answer.

Liz Terra, coordinator of the Medical Center's Executive Registry, wants to know about Health Net, the HMO (health maintenance organization) offered to UCSF staff for the first time during last November's open enrollment. Established for several years in Southern California, Health Net now is establishing affiliations with health care providers throughout Northern California. The Medical Center at UCSF has been enlisted as their health care provider for the San Francisco area. Both UCSF employees and employees from other SF organizations offering Health Net can choose the Medical Center for their health care.

"How many people signed up?" asks Liz. "And how's it working out? Also, I'm considering switching to Health Net during this year's open enrollment, but I live on the Peninsula. How would it work for me?"

A total of 662 UCSF employees enrolled in Health Net during the open enrollment period, and the majority of this number chose the UCSF Medical Center as the health care provider for themselves and their families. Including family members, we ended up with 1,180 UCSF Medical Center members. With new employee sign-ups, including those from other SF organizations offering Health Net, this latter number has increased to 1,350.

How is it going? In regard to the program here—"Very well," says UCSF Health Net Coordinator Caroline Bly. "I think members have found the physicians very accessible, for both acute and follow-up care. In most cases, for non-acute care, appointments can be made within a couple of days."

Whether or not the UCSF medical group would be appropriate for Liz and her family is a question of proximity, says Caroline. There's a 30-mile limit on the service area. "It's a matter of emergency care accessibility. To be further than 30 miles away would not be appropriate medical care."

In addition to UCSF, there are Health Net affiliates in all regions of the Bay Area. Thus, if you're interested in Health Net, but you live outside San Francisco, you may want to find out more about the affiliate in your area. For more information on health care providers other than UCSF, you can call Health Net's information line: 1-800-832-1616. And if it's more information on the UCSF medical group you want, you can call Caroline, x66400.

P.S. Have your own benefits question? Send it to *UCSF Newsbreak—Benefits*, UCSF News and Public Information Services, 532 Parnassus, Room 300, Box 0250.

How are the Funds Performing?

For those invested in the additional savings programs, here are the latest unit values and monthly factors (as of January 31):

• *Accumulation Unit Values*
Equity Fund: $50.065
Bond Fund: $32.214

• *Monthly Factors*
Savings Fund: .007497 (9.38%)*
Money Market Fund: .005828 (7.22%)*
GIC Fund: .006821 (8.50%)*

*These percentages represent the most recent returns expressed as an annualized rate. The money market and savings rates change monthly.

Questions, call x61400.

New W-4 Forms Coming — in May

Perhaps you've been reading about the IRS's efforts to come up with a new, less complicated W-4 form.

By all reports, the new form — called W-4A — has been developed and approved, it's now being printed, it will be mailed to employers beginning mid-April, and available to UCSF employees sometime in May.

According to the "Commerce Clearing House" law report, "the new Form W-4A was developed as an alternative certificate for taxpayers who prefer a simpler way to figure withholding than the latest version of Form W-4. All taxpayers may use either form, but those with complex tax situations may prefer to use Form W-4, which generally is more accurate in matching withholding and tax liability."

The report also states that employees who already have filed a 1987 W-4 won't have to file again once the new form appears.

Also, the IRS has announced and reiterated that taxpayers will not be penalized if they are underwithheld on 1987 wages — as long as they have made a good-faith effort to comply with the law.

Campus payroll manager Phil Ruttenberg reminds employees that whether you choose Form W-4 or W-4A to do your computing, you still need to transcribe your information to Form UCW-4 before you turn it in to your department's payroll rep.

Jobs

The Personnel Department, located at 1350 Seventh Avenue, is open to receive applications every weekday from 8 a.m. to 5 p.m. with extended hours on Wednesdays, 8 a.m. to 6:30 p.m. Details of jobs listed below are available in the UCSF Employment Opportunities flyers. Copies are distributed campuswide and also are posted at the Personnel Office and in the main lobby of Moffitt Hospital.

Key:
UNION CODES: CX - Clerical and Allied Services
AFSCME EX - Patient Care Technical
SX - Service
CNA NX - Registered Nurses

Administrative/ Professional

Senior Superintendent Physical Plant. Physical Plant. #V-B28055. $3,620-$4,377. Filing Deadline: 4/15/87.

Management Services Officer III. Environmental Services. #H-A47098. $2,867-$3,797. Filing Deadline: 4/25/87.

Management Services Officer II. Oral Surgery. #V-B29729. $2,490-$3,296. Filing Deadline: 4/22/87.

Clerical and Allied Services

Administrative Assistant II (CX). Anesthesia. #H-A43438. $1,766-$2,108. Open Until Filled.

Administrative Assistant II (CX). Pediatrics. #M-W50199. $1,766-$2,108. Filing Deadline: 4/15/87.

Health Care and Allied Services

Staff Pharmacist I - Poison Center Consultant. Clinical Pharmacy: Poison Control Center - SFGH. #V-S51753. $3,133-$3,610. Open Until Filled.

Clinical Laboratory Technologist. Clinical Labs/Laboratory Medicine - SFGH. #M-C50621. $2,505-$3,020. Filing Deadline: 4/15/87.

Clinical Laboratory Technologist. Clinical Labs/Laboratory Medicine - SFGH. #M-C50624. $2,505-$3,020. Filing Deadline: 4/15/87.

Clinical Nurse III (NX). ACC:Clinic Float. #H-C49500. $15.20-$18.33/Hr. Filing Deadline: 4/15/87.

Hospital (OR) Assistant III. Operating Room. #H-C42341. $1,898-$2,281. Filing Deadline: 4/15/87.

Hospital Clinical Laboratory Assistant II (EX). Clinical Labs/Laboratory Medicine - SFGH. #M-C50620. $1,702-$2,032. Open Until Filled.

Sciences, Laboratory and Allied Services

Staff Research Associate I. Pharmacology. #V-S40934. $1,811-$2,169. Open Until Filled.

Linen Preparation and Distribution

Senior Laundry Machine Operator (Relief) Laundry Truck Driver. Laundry Linen Service. #H-C50338. $1,656-$1,880 Or $1,967-$2,256. Filing Deadline: 4/15/87.

Academic

The Senior Vice Chancellor - Academic Affairs distributes an Academic Employment Opportunities bulletin on a monthly basis to all UCSF departments. You may obtain a complete description of open academic positions from Academic Affairs, Room U 162, UCSF. Positions are located on the Parnassus campus unless otherwise noted.

Assistant/Associate Adjunct Professor or Assistant/Associate Clinical Professor and/or Academic Coordinator. Continuing Dental Education. #D-97. Filing Deadline: 4/15/87.

Assistant/Associate Clinical Professor. Dermatology. VAMC. #M-724. Open until filled.

Assistant/Associate Clinical Professor. Dermatology. #M-725. Open until filled.

Assistant Research Physicist. Radiology. #M-726. Open until filled.

Assistant Professor in Residence. Radiology. #M-727. Open until filled.

Assistant Professor in Residence. Behavioral Neuroscience Service/ Psychiatry. #M-728. Open until filled.

Clinical Instructor or Assistant Clinical Professor (eight positions). Division of General Internal Medicine. #M-730. Open until filled.

Assistant/Associate Research Biochemist. Biomolecular Resource Center/ Biochemistry/Biophysics. #M-731. Open until filled.

Assistant Professor in Residence. Cardiology Division. VAMC. #M-732. Open until filled.

Assistant Research Nurse. Physiological Nursing. #N-111. Open until filled.

Psychiatric Inpatient Nursing

For more information on the following positions, call LPPI Director of Nursing Marilyn Rajokovich, x67361.

Clinical Nurse III. Psychiatric ICU. $2645-3190/mo.

Clinical Nurse III. Children's Inpatient Unit. $2645-3190/mo.

Clinical Nurse III. Behavioral & Neuro Science. $2645-3190/mo.

Inpatient Nursing

For more information on the following positions, call nurse recruiter Lynda Purves, x62252.

Clinical Nurse IV. Neonatology. $3045-3675/mo.

Administrative Nurse III. Neurosurgical ICU. $3045-3675/mo.

Administrative Nurse III. Oncology/Hematology/Bone Marrow Transplant. $3045-3675/mo.

Administrative Nurse I. Neurosurgery. $15.94-19.21/hr.

Administrative Nurse I. Neonatal ICU. $15.94-19.21/hr.

Clinical Nurse II. Acute Medicine. $14.51-16.70/hr.

Clinical Nurse II. Neurosurgery/Neurology. $14.51-16.70/hr.

Clinical Nurse II. Cardiothoracic/Vascular/Eye Surgery. $14.51-16.70/hr.

Clinical Nurse II. Pediatric Intensive Care Unit. $14.51-16.70/hr.

Clinical Nurse II. Intensive Care Nursery. $14.51-16.70/hr.

Clinical Nurse II. Neurosurgery. $14.51-16.70/hr.

Clinical Nurse II. Gyn/Urol/ENT Surgery. $14.51-16.70/hr.

Clinical Nurse II. Oncology. $14.51-16.70/hr.

Clinical Nurse II. Intensive Care Unit. $14.51-16.70/hr.

Clinical Nurse II. General Surgery. $14.51-16.70/hr.

Clinical Nurse II. Medical/Cardiology. $14.51-16.70/hr.

Clinical Nurse II. Ortho/Micro Surgery. $14.51-16.70/hr.

Clinical Nurse II. Neonatal ICU. $14.51-16.70/hr.

Clinical Nurse II. Cardiovascular Special Care Unit. $14.51-16.70/hr.

Clinical Nurse II. Critical Care Float Unit-Adult. $14.51-16.70/hr.

Clinical Nurse II. Pediatric Surgery ICU. $14.51-16.70/hr.

"Treasure Trove" Auction May 6 and 7

The focal point here is the polished bronze (untitled) sculpture donated by San Francisco artist Christiane Lazard, and offered by Auxiliary board member Kayla Grodsky and president Herbert Hoover as an example of the outstanding artwork to be featured in the Auxiliary's "Treasure Trove" auction on Wednesday and Thursday, May 6 and 7.

The painting in the background is not among the pieces to be auctioned, but its owner—restaurateur and art collector Modesto Lanzone—has a close association with the event: He's honorary chair.

The two-day event will feature a silent auction in the Millberry Union combined lounges from 10 a.m. to 4 p.m. on Thursday, May 7. Everyone is welcome, no admission charge.

The Wednesday event is a cocktail party preview. Everyone is welcome, $75 a person. The proceeds from both events will go toward the Auxiliary's good deeds in the Medical Center.

Know an artist who might want to donate something for the auction? You could present it like this: In addition to being a gesture of benevolence, it's an opportunity for some good exposure.

Actually, it doesn't have to be a painting or sculpture. It can be a fine print, china, a rare book....Remember, this is a Treasure Trove!

For more information, call the Auxiliary, x64906. And while you're on the phone, ask about their new discount coupon book, "The City."

Award-winning Artist

Mikkel Aaland

As one of the many activities planned for Children and Hospitals Week, Adrianne Burton and her Child Life Services crew invited the kids in Pediatrics to draw a picture of "My Stay in the Hospital" and enter it in a poster contest.

The first place winner in his age category was Matthew Segura of San Jose, whose drawing shows him with nurse Anne Senner (left in the photo, right in the drawing). The proud mom is Jodi Segura (right).

The winners were announced during a "Carnival Party" in the playroom, attended by patients, parents, staff, Bill Kerr, who cut the cake; and Helen Ripple, who presented the awards.

EMPACT! Logo Deadline April 13

Remember, you can win $50 and a place in posterity if you develop the winning logo for EMPACT!, the new EMPloyee ACTivities club. The logo doesn't have to be rendered to perfection—just get it on paper the best you can and submit it to Box 0204, M 24, by Monday, April 13.

If you've forgotten what the employee activities club is all about, here's a reminder: EMPACT! is an employee-directed group that will provide organizational support for any recreational, cultural or entertainment activity desired by individual staff or groups of employees. Questions? Call Leonard Andruski, x64073.

Next "Meet the Director" May 5

The following Med Center departments are invited to send a representative to the next "Meet the Director" meeting on Tuesday, May 5, from 8 to 9 a.m. in Room M 169:

- Pathology—morgue
- Building management
- Radiology
- Materiel Services
- Environmental services
- ACC
- OR
- Clinical lab—microbiology
- Nutrition and dietetics—cafeteria
- Accounting
- 12 L
- 10 L
- Med surg
- Nursing administration
- Critical care unit
- NICU
- HISD/systems

Remember, in addition to the 17 slots filled by these departments, there are eight slots for anyone who requests attendance. Call Gemma Rieser, x63006. Also, whether you plan to attend or not, you're welcome to submit a topic of general interest for discussion. Jot it down and send it to: Director Bill Kerr, attention "Meet the Director," Box 0208, M 181.

If Suzy Coxhead has her Way, You'll be Aware it's Organ Donor Awareness Week

Suzy Coxhead had a kidney transplant here at the Med Center more than 20 years ago. Last summer and fall, she came back to the Med Center for six months—but not as a patient. An employee of Wells Fargo Bank, she was here on a special community service leave sponsored by her employer. Her mission: to promote organ donor awareness.

Among her activities during her residency here, Suzy orchestrated—along with the Office of Public Service Programs and a campus committee—a whole weekful of events for National Organ and Tissue Donor Awareness Week, coming up April 26 through May 2. Be sure to check the next issue of *Medsounds* for more on Suzy's project and a roster of activities for the week.

What's this? Just Another Abnormal Day in the Key Entry Unit

Dick Dixon

It's true, things haven't been exactly normal lately in the key entry unit of HISD—they've been working like crazy getting the data entry screens reformatted for the CHARMS project. Here we have Eastern Onion interrupting their intensity for a moment of frivolity, bringing balloons and hats—and yes, that's a teddy bear he's presenting Anna Palega—as a token of thanks from the department. To Anna's left is Daisy Schultz, behind the Onion man is Sergio Sarzo, and not shown are key entry staff members Lomie Smith, Gail Chapman, Shirley Jackson and Louella Brown.

Clinical Lab's Idea: Spend a Day in Your Own Department

Last year during National Medical Laboratory Week the clinical labs had an open house and invited the whole campus to come get acquainted. They offered tours of each of the five main clinical components of the department—microbiology, immunology, hematology, chemistry and the blood bank. And they introduced the auxiliary services, including the computer center, quality control and the administrative staff.

After the event, the staff agreed they enjoyed hosting the other departments. But their own department is so big—170 people—and so diversified, they were feeling like they needed to know *one another* better. They would have liked to take the tours themselves, but they were too busy acting as hosts for their guests.

So this year for National Medical Laboratory Week—April 12 through 18—they're taking a different tactic. "Each day of the week," says Mary York, assistant chief of microbiology, "one area will serve as host, and provide tours for all the other areas. By the end of the week, every member of the staff will have had the opportunity to see and learn what other people in the department are doing."

Since the stated purpose for the week is "to recognize and applaud the contributions of medical laboratory personnel," Mary provides a little information along these lines:

"Of the 170 people employed in the clinical labs—which includes the laboratory in ACC—110 are licensed clinical laboratory technologists. This means you have a college degree in science, have completed a one-year internship in a hospital laboratory and have passed a state examination.

"California has very strict standards: Not only must you be a licensed clinical laboratory technologist to perform laboratory testing, you must have state licensure. That stands even if you have a national license. It's the only state I know with such stringent requirements. However, the caliber of our staff is very high. We're very proud of our work."

P.S. Just because the National Medical Lab Week celebration is somewhat in-house this year doesn't mean others can't join in, says Mary. Call Kim Farias, x63943, if you're interested in touring one or more of the areas.

Night Food Service Begins May 1

It's now official: A one-year pilot program of nighttime food service will begin Friday, May 1, in the San Francisco Room. The hours will be 7:30 p.m. to 2:30 a.m., and the initial menu will include soups, salads, made-to-order sandwiches, burgers, grilled sandwiches and desserts—subject to expansion as the program develops.

UCSF Medsounds

Volume 2, Number 8 April 11-24, 1987

"Spend a Day" is On the Way

Have any special plans for National Nurse's Day and National Hospital Week?

No?

Well, here's how you can change that: Sign up for the "Spend a Day" programs planned in conjunction with the above.

If you have been a participant in the past, then you already know that "Spend a Day" really means spend an hour in another department of your choice. You also know that this is a fun and interesting way to meet new people, find out what they do in their jobs, and figure out how your job relates to theirs in the whole scheme of things. Some people find that being a host is pretty fun, too—a great opportunity to tell others about your own job.

During the week of May 4 through 8—which contains National Nurse's Day, May 6—you can "Spend a Day" in one of the following nursing areas: an ACC clinic, a hospital nursing unit, surgery, the recovery room, or emergency. The way you arrange for this is to call x62252 between April 13 and April 17. Reservations are first come, first served—so call earlier rather than later. Spaces are limited!

During the week of May 11 through 15—which is National Hospital Week—"Spend a Day" continues, but this time you can visit just about any Medical Center department you can think of—computer services, lithotripsy, chaplain services, architects, biomedical equipment, pharmacy, physical therapy, building management, admitting, environmental services, social work, chaplain services, laundry, finance, the new marketing department, materiel services, medical records, nutrition and dietetics, or the clinical labs. These are some examples.

On the bulletin board in your department you'll find a complete list of participating areas—among which you'll find a new participant this year: The pediatric house staff.

To make your reservations for the week of May 11 through 15, call x61401 between April 20 and 24. Again, the department you want may fill up fast, so call early!

Mikkel Aaland

Leslie Flores

Spend a day with an administrator. That's what Tom McKibben from anesthesia did last year.

They Ate to Win and They Won

During the cafeteria's National Nutrition Month promotion, cysto-urology's Jinny Sakumoto and cytology's Margaret Colfer both won baskets of good things to eat.

How did they get so lucky? On Vegetarian Day and Complex Carbo Day, respectively, they bought the lunch special, which made them eligible for a drawing that same day. And they won.

Other winners: Nancy Catena from School of Medicine Academic Affairs won a cheese platter on Calcium Day, and ACC's Rob Carter won a $10 gift certificate from P.J.'s Oyster Bed on Healthy Heart Day.

At the end of the month, the name of every person who bought a lunch special (and then proceeded to fill out the entry card and enter it in the day's drawing) became eligible for a grand prize drawing. If you have some kind of in with Judy Zacharias from the cardiac cath lab, maybe she'll let you be the co-recipient of her prize. It's a custom designed catered lunch for two.

Quick! Sign Up for the May Day Run We Have to Defend our Title

Remember last year when UCSF took first place among all the Bay Area hospitals that participated in the American Heart Association's May Day Run?

On Sunday, May 10, we have to defend our title! Pick up your sponsor forms and entry blanks outside L 1057 and turn them back in to the Nursing Administration Office, L 171. If you have questions, call team captain Brigid Doyle, x65429, or Elaine Shanahan, x62252.

What If You Gave a Party and 3000 People Came?

Well, ask the members of the planning committee for the Medical Center's 80th birthday party last Saturday, April 4....because that's about how many people they figured showed up!

"The best way we could estimate," says committee member Kathy Balestreri, "is that we started out with 2500 forks. We ran out of those early afternoon and had to go get more."

True, it was a lot of people — but there was a lot to do, too. The tours were great, the exhibition hall was crammed with people, Beaker was a hit, the circus was fun, the cake was *huge* — the biggest cake you've ever seen in your life, as a matter of fact. And it was all gone by 3:00!

Among the crowd were Barney Reynolds, Adrianne Burton's uncle who was born here in 1911 (featured in last issue of *Medsounds*); Senator Milton Marks, who presented a Senate proclamation in honor of the Medical Center; and the former "Miss Nancy" of Romper Room, who led the crowd in singing "Happy Birthday."

And remember the kindergarten class from South San Francisco that sent the Beaker pictures to the Urinary Stone Center? Not only did they all show up for the party, they got up and did the "Beaker Walk" around the stage while they recited a poem their teacher wrote.

Well, it was a great party — thanks to all the people who showed up, to the almost 200 volunteers who made it happen, and to the very hard-working committee members: Maggie Bryan and Bob Saum (co-chairs), Kathy Balestreri, Betty Wimberly, Star Seals, Leonard Andruski, Adrianne Burton, Joya Bettel, Leona Hansen-Nealey, Janet Norton, Julie Buhler, Phil Yamahiro and Bruce Solomon.

These photos show just a glimpse of the event, but if you go check out the display case by the volunteer office in Moffitt Lobby, you'll find lots more.

Mikkel Aaland

What a cake! What you see here is just the northwest corner of it — and Senator Milton Marks, Tony Wagner and Big Beaker trying to figure out where to start cutting it.

Mikkel Aaland

"And this is how they used to anesthetize patients," explains OR evening supervisor Sue Stubleski at one point in a very interesting trip through the history of the OR. Other departments on the tour itinerary included radiology, radiation oncology, physical therapy, nursing units 6 and 11 Moffitt, emergency, clinical labs, materiel services, and EKG/ECHO.
